Call for Posters:

We would like to take this opportunity to showcase graduate student research related to food for health.

Please fill in the [Student Poster Call](#) information to be included in this day. A 'Plain Language' Poster template will be provided to students as well as a plain language training session on May 18th.

About the Day:

- Learn about Food for Health research and how it can help inform your work.
- Connect with researchers, industry, and government to discuss cutting edge research.
- Network and build opportunities for partnership and collaboration among researchers and industry (bring your resume!)

Food for Health is a research theme under the OMAFRA-U of G Partnership.

This event is co-sponsored by the Ontario Ministry of Agriculture, Food and Rural Affairs and the University of Guelph.
