

Isn't this fancy?!

Growing Chefs! Video Broadcast
system

Virtual Programming

What we've learned to date

- Built for live broadcast
- Can add graphics and slides into live video feed
- Adds to final production value

Virtual Programming

What we've learned to date

- Is significantly more complicated and costly to operate
- Requires a specialized skill set to operate/troubleshoot
- Is NOT necessary in order to offer impactful programming

Growing Chefs! Ontario

Video Resources for Families/Teachers

Topics include

- Getting started: cooking with children
- Working with knives/safe choppers/peelers & graters
- Strategies for introducing new foods to your children/picky eaters
- How to organize cooking activities for children of different ages
- Plus dozens of instructional recipe videos

Growing Chefs! Ontario

Live programming with community
Partners

- Multiple camera views add value to live virtual instruction
- Ability to add text during live production reduces need for printed materials (recipes/equipment)
- Improved picture and audio quality
- Enables us to create new partnerships! (distance/capacity)

Growing Chefs! Ontario

Lesson Plans

Currently piloting 8 lesson plans JK-Gr 12

- Food Systems
- Taste Like a Chef
- Edible Art
- Worm Composting
- Reducing Food Waste
- Growing A Classroom Garden
